

**MultiMatic**  
the best idea  
since the discovery  
of storage space

**SieMatic**

## Get up to 30% more storage from you kitchen.

Latest when you move the question will crop up: All that stuff you have to stow away and all that stuff you have to find a place for in the kitchen is always more than you had suspected. With the SieMatic MultiMatic Utility System you gain more storage from any given room.

Nowhere is space so valuable as in Kitchen Cabinets. Yet it is precisely here that too much space is mostly left unused. Conventional cabinets generally provide only two or three shelves at few predefined heights. The storage space these cabinets offer is rarely ever right. No wonder that most of us want to expand their kitchen even after having used it for only a short time. Unless you had opted for a SieMatic. Because a SieMatic offers more: SieMatic MultiMatic is a highly flexible Utility System that can be individually adjusted, changed and expanded. Anytime, and even with-out help. It provides for an individual utilization of the interior cabinet space and a user-friendly order of utensils. And you get up to 30% more storage space.

A kitchen pantry featuring various MultiMatic storage solutions. On the left, a chrome wire rack holds a jar of jam and several stainless steel pots. Above it, a chrome handle is mounted on a perforated metal wall. To the right, a chrome handle holds a stack of white plates. Below that, a chrome handle holds a stack of white paper napkins. In the bottom right corner, four clear plastic bins with chrome handles are mounted on a dark panel, containing different types of grains or seeds. The overall design is clean and functional, with a focus on chrome accents and perforated metal surfaces.

To enjoy the many useful features of MultiMatic you don't necessarily need to buy a new kitchen! Every SieMatic built after April 2000 can easily be retrofitted with MultiMatic elements.

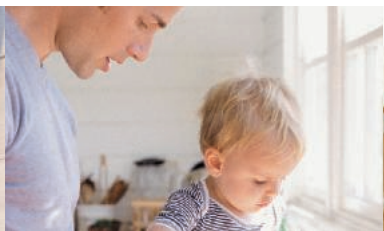

MultiMatic means that you can organize your kitchen to meet your own personal needs. Even if they change.

Never again be bothered by lids falling out of your cabinet. No baking-sheets in your way when baking. No more searching for those lost packets of Vanilla Sugar, rubber rings, or shopping-lists. A world where you can refill your refrigerator with drinks without first having to descend into the basement. Life can be this comfortable when you have MultiMatic. Because with MultiMatic your kitchen cabinets become flexible storage systems to accommodate your every storage need.

MultiMatic converts your kitchen cabinets into storage specialists. Such as your wine-glass cabinet, restaurant style.

Baby's bottle warmer, bibs and pacifier. Everyday items for a Baby's need – always found in one place.

Later it can be changed into a pantry for additional storage needs. Whatever is needed.

A lot of things can change in life.  
With MultiMatic you are prepared.

For instance, wine-storage with all a wine-lover needs: from Cork-Screw to Decanter, all right there.

For instance, when the love of your life would move in with the 116 piece family silver. And when a large single apartment becomes a small family household? No doubt the compact jars of baby food will be soon give way to voluminous cornflakes packets. And one day all the kids have moved out. Then, finally, the time has come to enjoy a glass from that exquisite collection, either just you two in peace and quiet or together with a group of friends.

With MultiMatic you will be well prepared.

## Ingenious design even behind the doors.

The MultiMatic utility system from SieMatic received the iF Award from The Industrie Forum Design Hannover, the reddot award from the Design Zentrum Nordrhein-Westfalen and the Good Design Award from the Chicago Athenaeum Museum of Architecture and Design.

Unique for MultiMatic is the patented multifunctional adjustment track that is typical for SieMatic engineering. The MultiMatic adjustment track allows for adjustability of the Shelves and pull-outs as well as the many and diverse MultiMatic elements to be adjustable in 16 mm [5/8"] increments.

The rails are imbedded in every cabinet side, but are also available in the inside of the door. MultiMatic has strong qualities. The drill-holes are protected against moisture by the plastic rail, and are easy to clean, long lasting, and extremely loadable.

### The MultiMatic System and what it is made of.

- 1 the multifunctional track in a raster of 16 mm [5/8"]
- 2 the SieMatic MultiMatic support clips are secure by turning 90° inside the track
- 3 the many SieMatic MultiMatic elements: High Quality chrome finish for strength and durability. The is design protected against cheap imitations by international copy right.

The MultiMatic Element that is a 'MAGLITE' holder – a holder not just for the American original, but for flashlights in general

## The MultiMatic utility system. Take your pick.

1 The bottle rack can take heavy loads on account of its curved shape. 2 Holding glasses by the stem, as they are in restaurants can save lots of storage space. 3 The three part interior drawer for cutlery is ideal for upgrading a cupboard which does not yet have any of the functional fittings. 4 Adjustable shelves allow objects of different heights to be stored. 5 Spice racks for almost any type of jar and tin can be positioned anywhere inside the door. 6 Spacer bars keep even narrow objects such as bags in place. 7 Casing, spice rack and bowl for small items. 8 The attractive container set is designed to fit together with spice racks positioned inside the door. 9 The holder keeps filter bags clean and close at hand. 10 The towel-holder that keeps those used towels out of sight. 11 The holder that always has a clean paper roll ready. 12 The rack that holds and cuts any kind of foil or film. 13 Roll-outs that keep baking sheets, chopping boards and trays out of the way. 14 The holder that puts lids of all sizes firmly in their place. 15 The container that collects plastic lids of all sizes. 16 The precision scale has a tare function and can be placed on the drawer tab or on the rail of the pull-out unit for use. 17 The hook for everything that can be hung, such as towels, napkins, carrier bags, and so on. 18 Clips and elastic straps hold small items in place. 19 The magnetic board keeps important notices such as shopping lists, notes, receipts well within sight. 20 The storage rack can be attached inside a door or inside cabinet, and can easily be moved if requirements change.
